

## expansion boxes for diffusers NSCP/RDM

### DESCRIPTION

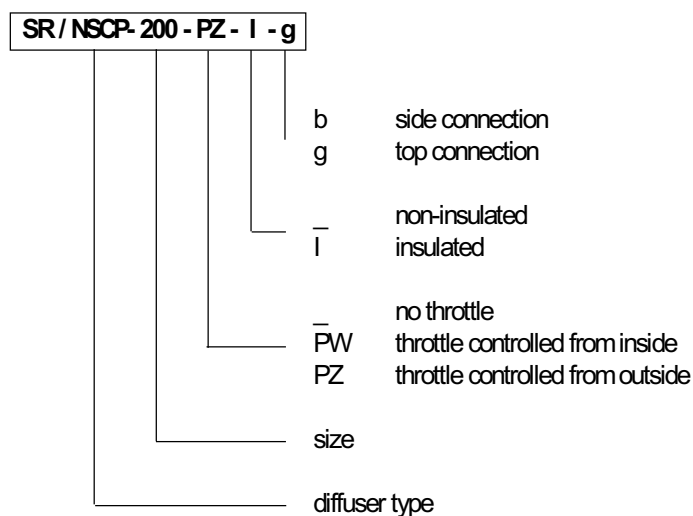

SR/NSC are expansion boxes for NSCP/RDM diffusers. They stabilize the airflow and ensure uniform air supply to the diffuser. Expansion boxes connect diffusers with ventilation installation. They are made of zinc-coated sheet, joint by non-welded Click-Clock connection.

Expansion boxes can be connected to the ventilation installation through the side or top.

Boxes can be thermally and acoustically insulated from the inside by K-Flex rubber mat.

Upon customer's request we can make other types of expansion boxes accordingly to provided drawings.

### ORDER REFERENCE

### STANDARD SIZES

SR/NSCP	100	125	160	200
